The problem now is, the parent application (09450637) is not a national stage case. Therefore, the system does not recognize that this is now a 371 of the parent case. System will not allow this insert, it's not valid.

Sorry!

It should be under domestic. It wouldn't allow me to place it there. Thanks I didn't see it listed under foreign.

Thanks
Brenda

Brenda,

This international number is showing under the Foreign Priority list, we can't insert in both places. Should it be under domestic? Or, should it remain under Foreign?
